I. Introductions

II. Old Business

- a. Update on meetings between Treatment Programs and P&P
- b. Evaluation of Treatment Programs: Review of Recommendations. We will pick up our review on Recommendation 2:

"Identify strategies to increase enrollments in the Batterer's Intervention Program by:

- *Revisiting the issue of costs and sliding scales, in an effort to find ways to communicate more clearly at every step of the process about the costs. Communicate in a uniform manner at every step that the sliding scale is available, so that judges, probation officers and facilitators are offering the same, clear message about program costs.*
- *To the extent possible, strive to insure that facilitators reflect the population that the provider is serving through the program.*
- *Address the issue of why only 17% of those enrolled in the program between 2015-2016 are there because of PFAs and develop strategies to expand their enrollment into the program.*
- *To the extent possible, consider transportation and scheduling barriers when planning orientations and group sessions."*
